

Mathis Vérité

Engineering Student

07 83 33 53 42

mathis.verite@etu.inp-n7.fr

Toulouse, France

PROFILE

Engineering student specialising in Electronics, Electrical Energy and Automatic Control, with an interest in electronics and signal processing. Motivated to apply my technical knowledge, develop my programming skills and contribute to engineering projects.

COMPÉTENCES

- Autonomy and initiative
- Teamwork and coordination
- Technology monitoring
- Python
- C
- Solidworks

LANGUAGES

✔ French– Native

✔ English– B1

WORK EXPERIENCE

Summer job

Lionor | Steenbecque, France — July 2024

Packaged poultry products and labelled products.

Observation internship

Apitech | Six-fours les plages, France — 2022

Discovery of precision machining professions (lathe operator and milling machine operator) and the work of a design office.

EDUCATION

Engineering school, ENSEEIHT

Electronic, Electronical Energy and Automatic (3EA)

September 2026- Now

Preparatory Classes Henri Wallon, Valenciennes

PCSI then PSI programs

September 2024- July2026

Lycée des Flandres, Hazebrouck

French Baccalaureate : Mathematics, Physics-Chemistry and advanced Mathematics option

September 2021- July 2024

INTERESTS

- Reading: science fiction and speculative fiction
- Strategy games and logical system design in Minecraft
- Climbing and tennis
- Learning Japanese
